I will lay out my system and the opportunity I represent in this detailed report. Please take your time and go through EVERYTHING carefully. You'll be glad you did.

MY STORY...One day back in 1978, I read a book written by Joe Karbo, "The Lazy Man's Way To Riches". Joe's secret in a nutshell - BE AN EFFECTIVE MARKETER!

I wanted to be just like Joe Karbo and be an effective marketer. It became my life's work. I became obsessed with this goal. I searched out successful marketing people and modeled myself after them by duplicating their success.

For Over 20 years, I've Been Teaching People How to Build An Ever-Growing Income Using My Unique Marketing System that Finds and Gets All the People You Need To Grow Your Business Fast and Easy.

I Will Provide You With A Powerful Marketing Tool That Reels-In All The People You Need To Rapidly Build An Ever-Growing Multiple Streams Of Income!

I now have people from all walks of life using my system.

I have Doctors, Attorneys, Engineers, Homemakers, Students, Salespeople, Nurses, Airline Pilots, Pro-Football Players, Mayors, Pastors, Chiropractors, Dentists, Construction Workers, Stock Brokers, Financial Planners, CPA's, CEO's, Small and Large Business Owners, and on and on.

Some are doing this full-time while others do it part-time. Some put in only very little time, yet they are successful in this business.

Thousands of ordinary people have created SECOND INCOMES and many have retired in 1 to 3 years with high incomes.

## The Network is the MODEL.

Corporate people and business owners understand how important it is to build a network of people. Most of us don't even realize that we all have networks of people that we've developed throughout our lives.

For example -- if you work for a company, you contribute in some way to build their network. But who benefits from that network?

YES, it's the company owners who get wealthy because of this network.

Here's a business model based on a corporate pay structure.

Level 1 - the working people who build and sell the product.

Level 2 - the management team that manages it all.

Level 3 - the OWNERS of the company.

Everyone (at every level) is involved in building a large network.

Realize that this network makes the company owners very rich at the top level of the payout structure. Those at the lower levels earn less money.

## So the questions I would ask are:

Are you going to continue to make somebody else rich building their network? Or are you going to change the way you do things?

100 years ago, 75% of the population was self-employed. What do you do when you're self-employed? You create a network of people who labor to create the product -- and people who do the selling. You make more money by owning your own business and creating your own network.

Most businesses require too much money to start up. That's the problem for most people. However, the money to start this business is very small, compared to thousands of dollars it would take to set up any kind of traditional business.

## Let's talk about the importance of \$1,000.

If you were to take away \$1,000 from the people in America, what do you think would happen to them? Many of them would lose their homes or cars. Many of them could not endure the sacrifice of losing \$1,000 out of their budget.

Consider that if it's that important to not lose \$1,000, how much more important is it to gain \$1,000 or more?

What would an additional \$1,000 or more do for those same people?

If you work to build your own network of people with this business, you could earn a whole lot more than \$1,000.

The good news is -- you can continue to work at your current occupation while you're building your network. When you bring in just 3 people, your network starts to grow from there.

It's all about what you can do for others and how well you can attract and build your own network of people.

**Let us show you how to start earning an Ever-Growing Income!**

**A Story Of Realization...**

One sunny day in California, Daniel took his children to the water park. While watching his kids swim, Daniel struck up a conversation with a businessman named Richard.

The businessman was working on his laptop computer. Daniel asked a few questions and found out that Richard's business was earning around \$6,000 per month, which is \$75,000 yearly.

While sitting there together, Daniel handed Richard our postcard and asked him to take a look at a video on our website. After watching the video about the business, Richard said -

"This is the the most exciting business I've ever seen. The \$69 startup cost is affordable for almost everyone." But how much does it cost to work this business?

Daniel said, "How much are your monthly expenses to run your business?" \$2,000, said Richard.

Daniel told Richard, "All you need to do is mail 30 postcards a day. The cost is around \$15 a day. That is far less than what other people are paying to run their businesses each month."

We have a complete marketing system that will find and get all the people you need to grow and expand your business fast and easy. You can quickly start earning an Ever-Growing Income.

Richard THEN REALIZED that the \$15 daily mailing cost was NOT going to be a problem for him or other clear thinking people. Richard joined immediately, and started building this business so he could increase his income.
