

Doyle Chambers' Business System Report #4:

Stop Losing...

You may want to print out this Report so you can easily read it.

My name is Doyle Chambers and my phone number is 972-635-9407.

In the beginning around 1989, I started working MLM opportunities. I was somewhat successful. My checks would grow and about at the six month mark - these MLM opportunities would go out of business. It kept happening to me and others - over and over again.

The problem was - all of these companies looked good at first - but the management team always failed. I kept moving on to the next company. I kept learning...and doing better with my recruiting efforts - even though the companies kept going out of business.

In 1994, I joined an MLM opportunity that seemed to be the right one. I started renting mailing lists and mailing out 100, 200, 300 mailouts a week. Within the first 90 days, I and my close associates recruited over 300 new distributors. From there, my group grew to over 30,000 distributors in that one company. And I did it all by mail. Today - I still get paid from this one company after 21 years.

There is a very important secret why this has worked for me and countless other distributors for over 21 years of continuous commission checks.

What is the secret?

The majority of programs being promoted by mail or through internet marketing are really just glorified "money games" that provide no real value. These are programs that you could not bring to your family, friends or professional people. You would be embarrassed -- or even worse if they did join...later they'd lose their money...and you'd hurt your reputation with people you care about.

As a direct mailer of postcards or letters or online marketing -- we want to target a very special group of people who want to build their business locally. So - the person that we're concerned about is the local area group builder. Someone that's brand new to the industry. Somebody that's going to put their name and reputation on the line within their own personal center of influence.

Local area group builders are hard working people who are willing to start an organization from scratch...and build their groups the old fashioned way. These are people who want to do one-on-one presentations, local area groups meetings, and retail products to family and friends.

Keep in mind - that I'm not saying that YOU personally have to do all this local area group building. My marketing tools will find those people for you...who want to do the work to build in their local area - so you don't have to do it.

The trick is you've got to find a company that the potential local area groups builders will like. You have to choose a company that appeals to this target audience. You have to make a good business decision when choosing the right company.

What kind of companies do local area group builders like?

You must put yourself in their position. If you were to start building locally in their city or town, you've got to offer something to people that has real value. You want a stable business that has already established itself with its products and management team. The right kind of business grows faster and moves greater volumes of product through local area group building efforts...so you earn money faster.

The Real Cash-Flow Funnel Business is the most viable program aimed at acquiring the local area group builders.

Most importantly - as mail order and internet recruiters, the Real Cash-Flow Funnel Business provides complete in-depth training for our local area group builders. We cover everything that a brand new person needs to know to be successful in networking. This is all done by the system - working on your behalf to help train your new people.

Everyone in your group - no matter how big your group gets - or how geographically diverse it gets -- they're all trained by the Real Cash-Flow Funnel system. With this business, if you live in Florida and you recruit a brand new local area group builder in California -- you don't have to get on a plane to go there and train them.

So you get to spend all of your time doing the most important task...and that is recruiting. It's a mailorder and internet recruiter's dream come true. The Real Cash-Flow Funnel Business is absolutely the best opportunity out there for building through the mail and the internet.

Would you like to build a large and profitable network through using the mail and internet, without having to contact your friends and neighbors, and

without having to do opportunity meetings?

I've already developed every marketing tool to enable you to do this business by mail and/or the internet. My system has proven itself over years and years. In order to attract local area group builder type people, you must have marketing materials that appeal to them and draw them in. I have carefully designed my marketing materials to have a mass appeal to the widest possible audience.

We want to reach everyday people who have not been exposed to the type of business we are promoting. My marketing materials have already proven to draw in Doctors, Lawyers, CEOs, small business owners, accountants, teachers, construction workers, sales people, and all walks of life. All of these people have skills in other areas that would lend themselves to a networking business.

We use mail marketing and internet marketing to massively prospect in circles that are likely to produce the local area group builders. Instead of you or I personally going out and talking to 100 business owners, we let the mailouts and internet marketing do the prospecting and the qualifying for us.

The people who are interested will respond and join. Then those people will go out and build a local group in their area. You are building a network. You'll be recruiting long-term business builders that will stay with you for years and years.

In our group we have 2 types of business builders:
1) People who want to build through the mail and internet.
2) People who want to build in their local area.

We have lots of people who start out building through the mail and internet. The people like the products and personal feedback they're getting so much that they decide to start recruiting their friends, neighbors and throughout their center of influence...co-workers, acquaintances, etc.

We have other people who start out as local area group builders. They see how well the mailings and internet are working for others...so they decide to expand their business by doing mailing and internet recruiting techniques.

We have the best of BOTH worlds.

Right now -- we've got lots of local area group builders who are making substantial money every month. These local area group builders are out there doing it the old fashioned way. They absolutely love it.

And guess what? Almost all of them were recruited by mail or through the internet.

We've got a significant number of mail order and internet recruiters in our business...who are building through the mail and the internet using the techniques I'll be teaching you on my training website. These mail order and internet recruiters are earning substantial income every month.

We spend all of our time working with positive people who want to work this business. The great thing about our business is that there are enough people out there that want to do this. They've got the funds to do this business.

We don't have to twist people's arms or beg people. When people take a serious look at our system and sense that we really do have something going here, they line up to work with you in this business. It's a winning situation for everyone!

It's working for countless people in our group. And it can work for you too. But you've got to forget your preconceived ideas about a networking business.

All you've got to do is follow the proven step-by-step plan that I've perfected. This may be exactly what you've been looking for.

HERE'S WHAT HAPPENED TO CRAIG BECAUSE HE PROCRASTINATED:

Craig (a construction worker from Northern Arkansas) reviewed the complete information on the business. Craig immediately recognized that this was a once-in-a-lifetime opportunity. There was no doubt that Craig was impressed.

BUT, Craig did not make the decision to join the business. Craig told me to keep him informed on what was happening. Craig had analysis paralysis. He couldn't make the decision to join even though he had all of the facts.

THEN 3 WEEKS LATER, I TOLD CRAIG THAT OVER 300 PEOPLE HAD JOINED THE BUSINESS.

CRAIG then immediately joined because he did not want to continue to miss out on the frenzy of growth we are having.

TODAY, Craig's business is growing by leaps and bounds - but Craig realizes that if he had joined immediately, his business could be much larger.

Looking back, Craig said, "There really was no real objection for me not to join - so I put it off. I believe that lost a lot of people because I procrastinated for 3 weeks. I'm still kicking myself with regret."
