

Doyle Chambers' Business System Report: Get Residual Income Now...

You may want to print out this Report so you can easily read it.

My name is Doyle Chambers and my phone number is 972-635-9407.

I will lay out my system and the opportunities I represent in this detailed report. Please take your time and go through EVERYTHING carefully. You'll be glad you did.

MY STORY...One day back in 1978, I read a book written by Joe Karbo, *"The Lazy Man's Way To Riches"*. Joe's secret in a nutshell - **BE AN EFFECTIVE MARKETER!**

I wanted to be just like Joe Karbo and be an effective marketer. It became my life's work. I became obsessed with this goal. I searched out successful marketing people and modeled myself after them by duplicating their success.

For Over 25 years, I've Been Teaching People How to Build An Ever-Growing Residual Income Using My Unique Marketing System that Finds and Gets All the People You Need To Grow Your Business Fast and Easy.

I Will Provide You With A Powerful Marketing Tool That Reels-In All The People You Need To Rapidly Build An Ever-Growing Stream Of Residual Income!

I now have people from all walks of life using my system.

I have Doctors, Attorneys, Engineers, Homemakers, Students, Salespeople, Nurses, Airline Pilots, Pro-Football Players, Mayors, Pastors, Chiropractors, Dentists, Construction Workers, Stock Brokers, Financial Planners, CPA's, CEO's, Small and Large Business Owners, and on and on.

Some are doing this full-time while others do it part-time. Some put in only very little time, yet they are successful in this business.

Thousands of ordinary people have created SECOND INCOMES and many have retired in 1 to 3 years with high residual incomes.

I have gone to great efforts to design my marketing system so that it is easy to understand and easy to do.

- 1** I'll begin with a basic introduction to the secrets that you must understand and use in order to create wealth.
- 2** I'll show you how a networking business allows you to incorporate these secrets and use them to your advantage.
- 3** I will show you why networking is the right business today.

Statistics now show that 97% of the population, at age 65 are broke.

They are dependent upon friends, family, or the Federal Government for financial support. In fact, we are not much better off than we were at age 18 after spending 40+ years working.

It's not that we don't work hard or that we don't want to succeed - we just don't understand how. The problem is that most of us were never taught how to succeed financially. Think about it. In all your years of schooling did you ever see a class offered like "SUCCESS 101" or "WEALTH BUILDING 101" ?

The average income today for someone with a Masters Degree is less than \$50k per year.

Why have others created fortunes with little more than a high school education?

Maybe you were told that hard work was the most important thing?

Honestly, do you think that Donald Trump works any harder than your average steel worker? Of course not, but - he does work differently.

What are 3% of the people doing differently than everybody else to earn above average incomes and live above average lifestyles?

They understand the rules of the game and the secrets you must employ in order to create wealth.

#1 - Be Your Own Boss

Today, more than ever, we are seeing that there is no longer security in working for someone else. Unless you are building equity in you or something you own, you are wasting your time. You must be in

charge of your own destiny and in control of your future. You absolutely, positively must be your own boss!

Today people are turning to networking as the answer to owning their own business. It is the only opportunity where an average person can start a business of their own for very little money and virtually zero risk. Yet, it provides the potential of creating unlimited income and wealth. No other business today allows you to start with so little and offer so much potential!

#2 - Leverage

Most people today are never able to create wealth because their income is limited to just them. They are simply trading their hours of work for someone else's dollars. As long as your income is limited to what you can personally earn with your own two hands - creating wealth will be difficult, if not impossible.

J. Paul Getty said it best, ***"I'd rather earn 1% from the efforts of a hundred people than I would a 100% from my own efforts."***

Networking allows you to incorporate the efforts of other people by sharing the business with them and sponsoring them into your organization. They in turn will sponsor others, and so on, and so on -- and through the process of duplication your organization will grow and multiply.

Soon you could have hundreds, or even thousands of people in your organization, from whom you'll receive a percentage. This allows you to create unlimited income and wealth!

#3 - Residual Income

Successful people find a way to get paid over and over again on the work they do today. How would it be if you could develop a business that would create a continual stream of ongoing income that would continue to flow to you whether you went to work or not?

Since Networking allows you to build an organization of hundreds or even thousands of other people from which you'll earn a percentage, your income will not be limited to you and your work.

You may decide to take a month off, meanwhile your organization can continue to grow as others share the products and build their own business. Thereby

creating a stream of ongoing permanent residual income -- a true money tree!

No other business can provide you the GIANT Income and lifestyle that networking can!

#4 - Timing-Huge Demand

Find a trend, something that's going to be big and get in front of it. The key to making a lot of money in networking is to get started with the right business, at the right time, and develop an organization that will position itself in front of a huge trend so you will experience EXPLOSIVE GROWTH!

The Network is the MODEL.

Corporate people and business owners understand how important it is to build a network of people. Most of us don't even realize that we all have networks of people that we've developed throughout our lives.

For example -- if you work for a company, you contribute in some way to build their network. But who benefits from that network? YES, it's the company owners who get wealthy because of this network.

Here's a business model based on a corporate pay structure.

Level 1 - the working people who build and sell the product.

Level 2 - the management team that manages it all.

Level 3 - the OWNERS of the company.

Everyone (at every level) is involved in building a large network. Realize that this network makes the company owners very rich at the top level of the payout structure. Those at the lower levels earn less money.

So the questions I would ask are: *Are you going to continue to make somebody else rich building their network? Or - Are you going to change the way you do things?*

100 years ago, 75% of the population was self-employed. *What do you do when you're self-employed?* You create a network of people who labor to create the product -- and people who do the selling. **You make more money by owning your own business and creating your own network.**

Most businesses require too much money to start up. That's the problem for most people. However, the money to start this business is very small, compared to thousands of dollars it would take to set up any kind of traditional business.

Just the other day I was talking to Mary and Tom, who were interested in getting started in this business.

They asked me - "How long will it take for us to really earn some income?" And I said - "It depends on how hard you work using my system."

Mary said - "Well, my husband has decided he wants to do this business. And he's so excited about it...I'm really worried."

And I said - **"What were you going to do without this business?"**

And she said - "We were planning to go to Chiropractic School."

"How long would that take you?" "4 Years."

"And how much would it cost you?" "\$70,000."

"And when your husband got out of school in 4 years, would he have earned any money during that period of time when he was in school?"

"No, not a single penny."

"And when he got out of school, would he have to buy equipment?" "Yes, \$50,000 worth of equipment."

"And would there be any customers waiting in line to be part of his clientele?"

"No, we'd have to go find those customers and we'd have to build our business - and then we could be respectable."

And I said - **"Mary, you can start your business right tonight. You can start it now! Because by the time that 4 years is up, you're going to be earning growing streams of income.**

You're not going to have to go into debt for \$50,000 or a \$100,000 or more."

"And you're not going to have to spend 4 years with zero income. You can start building your business

right now with just a few hundred dollars."

That's my message to you. The business I am offering you is one of the finest, quickest, easiest, safest, least expensive ways to build a growing stream of income that I have ever seen.

I'll let you in on something... The number one problem is not just RECRUITING, but in recruiting people who will also recruit, and so on...

No Networking program - no matter how attractive, no matter how legitimate, no matter how well supported with recruiting tools and educational aids - can be certain that everyone involved will produce a systematically growing organization.

Networking is a people-helping-people industry, but unfortunately - it's PEOPLE who cause it to have such a poor success rate. Not you of course, but perhaps the next person you enroll, or the person THEY enroll. Someone is certain to.

But there is no way to succeed in the Networking industry without depending on a large number of other people to do what is necessary.

The reality is - it may take a very long time for only a few people to become successful. You are risking YOUR future, YOUR goals, and YOUR dreams on a bunch of people who may, and probably WILL, let you down. People who, for the most part, you don't even know, don't know you, and probably could not care less whether they are letting you down or not.

**THE BIG SOLUTION IS
PERFECTLY CLEAR TO ME ...
MAKE THEM SUCCESSFUL!**

**DON'T WAIT FOR THEM TO
BE SUCCESSFUL WORKING
ON THEIR OWN.**

Instead, **ONE Command Center** will do ALL the direct recruitment and training. This persistent activity by one command center will produce systematic, geometric progression which WILL produce MAXIMUM growth.

The REAL object is to move from point "A" to point "B", with point "A" being your current financial situation and point "B" being where you want to be financially - within a reasonable period of time.

I have worked this system with ONE Networking company for over 20 years...that's right...20 years. I have proved that my system works beyond all doubt.

**WITH EVERYONE WORKING TOGETHER
AND AIMED IN THE RIGHT DIRECTION,
THIS VEHICLE WILL GET YOU TO A
POSITION OF FINANCIAL
INDEPENDENCE.**

All it needs is a constant supply
of fuel to reach its destination.

WHAT IS THE FUEL? REFERRALS!!!

Using my exclusive **Referral Marketing System**, I'll show you how to mail referral letters and place ads to get people to go to my website and get a free report.

My automatic system will deliver the complete information to your referral prospects. In effect, I will be sending your referral prospects an invitation to join us in YOUR organization.

I will do a large part of the work. All direct recruitment will be conducted and administered by my organizational office ("The Command Center").

I am very good at "teaching" people how this system works. I will explain and teach all of your referral prospects how to work this business and be successful. And with programs as good as these, it's a very easy "sell".

I AM IN THE BUSINESS OF MAKING PEOPLE SUCCESSFUL IN A BUSINESS WHERE VERY LITTLE SUCCESS EXISTS...AND I AM VERY GOOD AT IT!

**WISE PEOPLE FOLLOW
SUCCESSFUL PEOPLE WITH A
PROVEN TRACK RECORD.**

If you are not making a substantial growing income, then do not rely on your own judgement. You must rely on the good judgement of people who are already successful.

You must follow a leader who has the experience and good horse picking skills that you may lack.

When I finally got smart, I searched to find real Leaders with a proven track record of success.

I LEARNED TO FOLLOW SUCCESSFUL PEOPLE.

Today - I have substantial ever-growing income!

In a nutshell...to succeed in a leveraged business, you must follow a true leader who has a proven sponsoring system, and a success track record of at least FIVE YEARS working in the industry.

Instead of searching for a program to join - look for a true Leader and follow them.

THAT'S THE SECRET!!!

With this business -- you simply use the tools to refer people to my website. Your referral people will go to my website and get my Free Report and read everything.
